Bar Handle For Sliding Door – Installation Manual

Required Tools: Allen Key(Included) & Screwdriver

Step 1: Using the Allen Key, remove the Grub Screws.

Step 2: Gently pull apart the handles, using slight force.

Step 3: Using a Screwdriver, remove the screws, both from top and bottom.

Bar Handle For Sliding Door – Installation Manual

Step 4: Place one rubber seal on the handle, as shown.

Step 5: Place the other rubber seal on the screw.

Step 6: Place the handle with the rubber seal on one side of the glass, aligning with the holes on the glass. Then on the other side of the glass, using a screwdriver screw the screws back together.

Step 7: Get the other handle, and place it on top of the screw, using slight but firm pressure pushing it together.

Step 8: To finally secure the handles, using the Allen key, screw the Grub Screws back together.
